

Examples of Injury Prevention Successes:

- ❖ Eight Head Start programs are participating in Sleep Safe, a National program to reduce house fire injuries and deaths in young children
- ❖ Saved by a child car seat during a rollover: A Lac du Flambeau infant
- ❖ Saved by a seat belt during a rollover: a Lac Courte Oreilles teen
- ❖ Saved by smoke detectors during house fires: a Red Cliff family, a Menominee tribal member, and a White Earth elder
- ❖ Saved by a carbon monoxide detector: a Lac du Flambeau elderly couple

The Bemidji Area Injury Prevention Program

Is dedicated to improving the lives and reducing the toll of injuries in the communities we serve. This is accomplished by assisting tribes in developing their own capacity to address injury using an integrated approach: environmental modification, education, and enforcement. The following are examples of the many services and resources which our program provides:

Program and Project Development:

- ❖ Assist program & project development, implementation, & evaluation

Resources:

- ❖ Provide Area funds
- ❖ Provide information on training opportunities, funding, current literature, etc.
- ❖ Assist with grant proposal writing
- ❖ Assist with networking: Federal, State, local, & other

Coalitions:

- ❖ Assist with development, maintenance, & training of injury prevention coalitions

Data:

- ❖ Assist development & evaluation of data collection systems
- ❖ Provide data analysis & interpretation

Training:

- ❖ Provide and encourage participation in: Injury Prevention Level 1, 2, 3, Fellowship, childcare workshops, EPI Info., grant-writing workshop, & other training
- ❖ Tailor training to meet local needs
